

Connects you to work files instantly - anywhere, any time

It has the same toolbar, work list and tabs use in the main Worldox program. No learning curve ... you already know how to use Worldox/Web Mobile:

The screenshot displays the Worldox/Web Mobile interface. At the top, it shows the user is logged in as 'DEMO (Demo User)' with an IP address of 65.206.104.95. Below the navigation bar, there are search filters: 'Find: Client=00013 ...' and 'Find: Name/Comment=contract ...'. The main area shows a list of 10 records with columns for Description, Doc ID, Ver#, Date Created, Last Updated, and Size. The first record is selected, and its details are shown in a preview pane below. The preview pane includes a 'Description' field with the document title and a 'Profile' section with fields for Client, Matter, DocType, Author, Typist, and Location. To the right of the profile, there is a 'Doc ID' field and a 'Metadata' section with fields for Date Created, Last Opened, Last Updated, Size, and Owner.

Benefits of Web Mobile Access

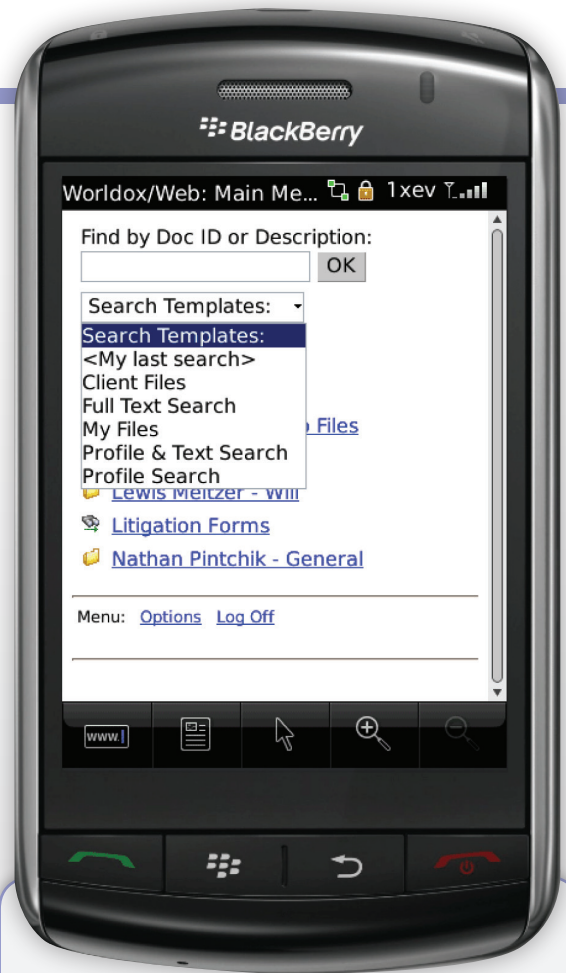

- On-demand, remote access to work files – on the road, at your home office, from anywhere.
- Available on PC, laptop or handheld (one price covers all).
- Completely secure access.
- Available 24/7, without the need for VPN, Citrix or any other remote access software.
- Browser-based: no additional client software needed.
- A consistent interface: if you know Worldox, you already know how to use Worldox/Web Mobile.
- Extends the remarkable utility of Worldox out-of-office, even into client meetings.
- One-click email attach and forward, via PC

Doubles as a Client Extranet!

No costly development, no need to publish documents to a dedicated website for clients.

Worldox/Web Mobile can be an extranet too. Just set up file, group and feature security to control access, then email a url and password to clients. It really is that simple.

For details, contact your Worldox Reseller:
