

Workshare and Worldox integrate to offer comparison and collaboration on any device

FEBRUARY 6, LEGALTECH CONFERENCE, NEW YORK – [Workshare](#) today announced integration with [Worldox](#), allowing users in the legal field to compare, securely share, and collaborate on documents directly from Worldox. With this new integration, Workshare is enabling a more accurate, efficient, and secure collaboration process for Worldox users.

Worldox users can now access Workshare’s comparison, secure file transfer, and metadata cleaning services, as well as file synchronization on any device. Workshare enhances the collaborative processes, allowing users to highlight changes and prompt reviewers to prioritize different types of activities, create and share updates, all directly from the Worldox Document Management System. The integration also allows users to create a single PDF document from multiple Word document sources, and convert PDF documents to Word format for editing.

“Workshare is committed to the legal community, and a strategic partnership with Worldox is another step in providing legal professionals with the collaboration capabilities needed to match both user and IT needs,” said Anthony Foy, Workshare CEO. “With Workshare, Worldox is offering its users a simpler and safer way to share, compare, and collaborate on documents. This new integration reflects our commitment to optimizing our customers’ investments in all document management systems.”

“We are very pleased with this latest integration between Worldox and Workshare. Our joint customers will certainly have a more efficient method of document comparison while in their Worldox DMS,” said Ray Zwiefelhofer, President of World Software Corporation. “This type of commitment to enhance our customers’ workflows makes Worldox and Workshare leading legal solution providers.”
