

Make your data as mobile as you are with Worldox Web 2.0

Access all your Worldox files from remote locations with a browser on a PC or handheld device with Worldox Web 2.0.

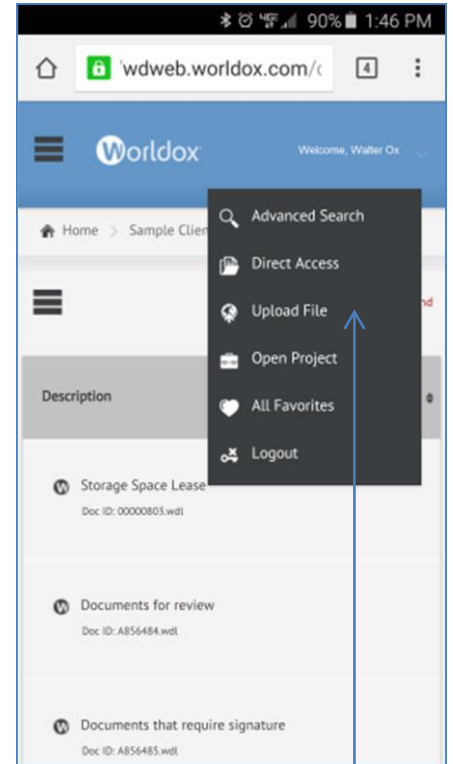

Worldox Web 2.0

Worldox Web 2.0 is the Internet companion product to Worldox GX4. The PC browser version features a totally new, more modern and simplified user interface to improve navigation. The new mobile front-ends have also been enhanced so that the user interface is optimized for the screen's resolution. Whether you access Worldox Web from a PC, smartphone or tablet, you can access all Worldox features in an intuitive way.

This feature-rich product is the perfect mobility tool to provide you with access to your Worldox content over a wide array of devices. We have all had a situation when you need a file and all you have is your phone, now you have the solution.

Worldox Web 2.0 on a PC browser

Worldox Web 2.0 toolbar options on an Android phone

Note: If you have an iPhone or iPad, the free Worldox for iOS dedicated app is the recommended way to access Worldox. If you do not want to install the app for some reason, then Worldox Web 2.0 is a convenient alternative that will also work on these iOS devices.
