GlobalX and Worldox partnership delivers new efficiencies

Australian legal workflow and online information provider GlobalX has announced a new integration partner – leading Document Management System Worldox.

The new partnership provides seamless integration between the GlobalX Search Platform and Open Practice system with Worldox.

The partnership means thousands of legal, financial services and in-house legal professionals will have a highly collaborative integration, delivering significant efficiencies throughout the life of a matter.

GlobalX Chief executive Peter Maloney said the integration offers GlobalX clients using Worldox a streamlined user experience that saves time and money and eliminates room for error.

"Professionals using GlobalX Search, Open Practice and Worldox can enjoy the integration at no cost, providing access to the most comprehensive range of regulatory information to be ordered within seconds," Mr Maloney said.

"All documents are delivered in real time straight to the Worldox Document Management System."

"With more than 25 years' international industry experience in 52 countries, it's undeniable that Worldox offers GlobalX Search and Open Practice customers a high standard of document management functionality."

Mr Maloney said the integration would significantly minimise human error as document delivery went straight to the Worldox system.

"This partnership with Worldox is just part of GlobalX's ongoing commitment to streamlining processes for clients and creating the best possible, cost-effective and user-friendly experience, the best way we can do this is to work directly with collaborative solution providers, such as Matrix Solutions, which ensures a highly secure and enduring technical solution." he said.

The partnership with Matrix Solutions – Australia's leading Worldox implementation partner – brings to market Worldox's leading Document Management system, GX4, with GlobalX Search and Open Practice.

Matrix Solutions' Managing Director Anthony Ridley-Smith said the integration offers an exciting opportunity for Worldox and GlobalX's mutual clients.

"We are always looking for new ways to deliver a return on investment for clients, and this partnership with GlobalX will deliver increased benefits to our customers," Mr Ridley-Smith said.

Worldox integration with GlobalX Search and Open Practice is available now. To learn more, visit the contact us page on globalx.com.au.

About GlobalX

GlobalX (globalx.com.au) is the market leading provider of integrated and innovative online information and workflow solutions that advance productivity and effectiveness for legal and conveyancing practitioners across Australia. GlobalX combines industry experience, national presence and innovative technology to deliver accurate, trusted and critical information to the legal, conveyancing and business communities. Each day, through online information, practice management software (Open Practice), conveyancing workflow software (Matter Centre) and conveyancing and legal support services, they make it easier for law firms and conveyancers to access the right information, in the right format at the right time. With operations in Sydney, Melbourne, Brisbane, Gold Coast, Perth and Adelaide - GlobalX offers a truly national service offering. GlobalX is the first provider with PEXA integration, enabling the technology giant to deliver a hybrid of electronic and manual property transactions to thousands of lawyers and conveyancers across Australia.
