

About PayneGroup

Since 1994, PayneGroup has been providing software, training and publications. PayneGroup was the first to provide a metadata removal tool for Office applications and continues to expand both the security product offerings as well as the template and workflow solutions. We pride ourselves on our product base and services, our customer service, and proven care of our clients.

PayneGroup is a Gold ISV Microsoft Partner and has long been a part of the Microsoft Certified Partner Program. PayneGroup is a Platinum level sponsor of ILTA and has been the highest level sponsor since this level of sponsorship was created.

Metadata Assistant and Worldox Integration

The Worldox integration is simple to deploy and use.

The Metadata Assistant provides a 'hook' to Worldox and uses all Worldox interfaces and functionality so our mutual clients may clean and/or convert files to PDF that have been saved to the Worldox document repository.

Forms Assistant and Worldox Integration

Easily save pleading captions to Worldox for quick access.
