

For Immediate Release

World Software Corporation and Copyrite Business Solutions Ltd, a strategic Worldox reseller, announce their partnership.

April 29, 2014 - Glen Rock, NJ. World Software Corporation announces its strategic relationship with Copyrite Business Solutions Ltd, a leading IT consulting company based in the UK. This new Strategic reseller relationship furthers World Software's plans for continued expansion in the European market place.

About Copyrite

Formed in 1993, the heritage of Copyrite Business Solutions is in the provision of office printers, office photocopiers and small business copiers throughout Hampshire and Dorset. Today, Copyrite provides 'Total Document Technology' to over 2000 customers across the south coast and nationally.

Printing, Copying, Scanning solutions and **Managed Print Solutions** are still at the core of our business but our services have developed in line with technology change and have grown to encompass larger business document solutions. In response to customer requirements, we have moved into the dynamic areas of IT, Web Services, and Business Process Optimisation.

A Statement from the President of World Software Corporation:

Ray Zwiefelhofer, President of World Software Corporation stated, "We are very excited about this new reseller relationship. Copyrite has been serving this market for many years and has the similar values in customer relationships and the quality of service that we hold dear. While the Worldox document management system is in over 4,000 U.S. law firms, this new relationship will allow us to gain further traction in the European market."

Ben Summerfield, Head of Software at Copyrite, commented:

We see this as an exciting new step that will enable us to expand our offering in a sector we already specialise in. Having spent a considerable amount of time analysing the DMS (Document Management Systems) market in the legal sector, Worldox really stood out from the crowd. From our perspective, we believe the product will enable us to bring a very full featured and effective toolset to drive huge

efficiencies in document handling, security and office space – all at a far lesser cost than our clients may traditionally expect to deliver a rapid return on investment. In economic times where the ability to act quickly to a rapidly changing market means we all need to be scalable, an effective DMS offers a true competitive advantage.
