

## Share files with clients and counsel securely and efficiently.

Citrix ShareFile integrates with iManage and Worldox, allowing you to easily transfer files from your document management system using convenient ShareFile links.

“ShareFile helps us easily and securely send important documents and video material to our lawyers, experts and clients wherever they are.”

Mike Doyle  
Doyle Raizner LLP

**99%** of Fortune 500 companies use ShareFile

Citrix ShareFile helps law firms of all sizes securely exchange files with employees, clients and experts. Encrypted, web-based transfer allows your firm to eliminate insecure file-transfer methods such as courier services, email and fax. Cloud-based storage and backup reduce the burden on your existing servers. With an easy-to-use interface, ShareFile keeps setup and administrative effort to a minimum.

- Easily and confidentially send all file types directly through email
- Create advanced reports and usage audits
- Sync information across all devices
- Access world-class customer support

### Total security

SSAE 16 Type II accredited datacenters, along with encrypted file transfer and storage, ensure your data is protected.
