## **Citrix ShareFile Integrates with iManage and Worldox Legal Document Management Systems**

*Now teams can work easily and securely on cases anywhere, anytime*

**SANTA CLARA, Calif. – August 29, 2013** – Citrix today announced that [Citrix ShareFile®](#) offers full integrations with iManage and Worldox, helping legal firms get greater value out of their document management system (DMS). The new integrations eliminate the lengthy process legal and security risks professionals currently face in order to share documents outside of their document management systems. In addition to simplifying legal document management, the integrations also ensure secure mobile management of legal documents, enabling legal professionals to remain productive when away from their desks.

### **Making Legal Document Management Simple and Secure**

Typically, users log into their existing DMS, extract confidential files, save to local drives and send them through unsecure email. Through the integration of ShareFile with iManage and Worldox, legal professionals can now collaborate, share and send files without ever having to log out of their DMS. As a result, legal professionals increase productivity by reducing email and shuffling paperwork, through a simple, seamless and secure experience.

### **Law Firms Entrust their Documents to ShareFile**

ShareFile features for legal professionals include:

- **Full text search** within documents
- **Trusted security** – end-to-end encryption and password protection on the download
- **Mobile content editor** – edit legal case files, annotate deposition PDFs and edit spreadsheets for billable hours

Citrix ShareFile adoption has accelerated within the legal market, growing 275% across the AM Law Top 200 firms in the past year. Cleary Gottlieb and Axinn Veltrop Harkinder are among the leading law firms that use Citrix ShareFile.

### **Citrix ShareFile Integrates with Top Legal Document Management Systems**

iManage and Worldox are popular document management systems used within law firms. According to DocAuto, approximately 74% of legal firms in AM Law's Top 200 report use iManage. Worldox is a market leading legal DMS with more than 5,000 customers in 52 countries.

“Our integration with ShareFile makes it even easier for customers, further simplifying the user experience into one secure solution,” said Ray Zwiefelhofer, President, Worldox. “We empower lawyers by providing a safe and secure environment in which to work across mobile phones, tablets, laptops, and desktops.”

## Availability

The iManage and Worldox integrations are available to customers today. To learn more please visit [ShareFile legal](#).
