Business Benefits:

Increase efficiency

Integrate DocuSign signing processes directly into Worldox, reducing task time by completely eliminating the "print-sign-scan-file" process.

Improve compliance

Documents signed using DocuSign comply with the most stringent international, national and industry regulations for electronic signatures. Signed documents, certificate and audit trail documents are automatically returned back to the document management system.

Ensure security and validity

Any recipient of a document digitally signed with the DocuSign Connector can easily verify the signature.

Paperless signature approvals

Skip the process of having to print documents only to sign and scan them back in. Go paperless without drastic changes to existing processes.

DocuSign Connector for Worldox ROI points:

- ❑ A single right click action to initiate the signing process within Worldox, shortening the signing process to seconds.
- ❑ Signed documents automatically saved back into Worldox as a new version or new document, reducing user workload by eliminating the manual "print-sign-scan-file" process, and automatically re-filing documents with their originals.
- ❑ Flexible and rich configuration options to match your organisation's workflow, simplifying the e-signing and DMS management process.
- ❑ Complete audit trail and traceability, meeting or exceeding your security policies and practices.
- ❑ Supports both on prem and Cloud architecture and we offer a comprehensive Azure hosting and managed service option, giving customers a true peace of mind.
