# Worldox Web 3

Empower your workforce with enhanced two-factor authentication and a faster interface.

Worldox Web 3 is the latest Internet companion product to Worldox GX4. The browser version features a totally new, more modern and simplified user interface to improve navigation. The new mobile front-ends have also been enhanced so that the user interface is optimized for the screen's resolution. Whether you access Worldox Web from a PC, smartphone or tablet, you can access all Worldox features in an intuitive way.

This feature-rich product is the perfect mobility tool to provide you with access to your Worldox content over a wide array of devices. We have all had a situation when you need a file and all you have is your phone — now you have the solution.

The Worldox Web 3 module comes with a fully redesigned Web Server Engine and User Interface. It includes the Worldox Web Integration Agent for Worldox Web 3 which provides popup integration on File>Open and File>Save operations for most applications with which GX4 currently integrates.

Worldox Web 3.2 displayed in a browser

Worldox Web 3 is the companion to Worldox GX4 and you must be on the current version of GX4 to install it. It also requires:

- 64 Bit Windows Server 2012 R2 or Higher running IIS
- Static IP address with a corresponding hostname
- Full time broadband Internet connection

- Windows 10 (x64 required) workstation, quad core CPU with min 8 GB of RAM, to serve as a Worldox Proxy Server.

Want Worldox Web 3 but prefer not to set up a web server?
Contact us for details about Hosted Worldox Web 3 where we host the server for you.

Worldox® Worldox Web 3

Worldox Web is more efficient than ever with tighter security and reactive front-end.

Benefits for your business include:

- **Browser-based Worldox Web** requires no additional client software and works on any device with a browser. Manually check out and check in files.
- **Worldox Web Integration Agent** for Windows devices enables direct integration with most programs that Worldox does. Automatically check files in and out as you open and edit them. You can also drag and drop file objects to the Worldox WorkZone.

Worldox search form on an iPhone

In addition to being able to access Worldox via the Worldox Web solution, you can also use the Worldox app on an iPad or iPhone. The Worldox for iPad app provides new features, a redesigned user interface and built-in help documentation. The app is available for download from the Apple® App store.

- Includes all access on PCs, laptops or handheld devices
- Available 24/7, without the need for VPN, Citrix or any other remote access software
- Incorporates Worldox "Active Profiling®" technology for speed and efficiency
- Mobile friendly interface to support all popular devices that display Worldox features ideally for your screen's resolution
- Extends the remarkable utility of Worldox out-of-office, even into client meetings
- One-click email forward and attach
- Hosted option available for a monthly fee
- Two-factor authentication for personalized security

Two factor authentication (2FA) works internationally
