PROCIRRUS™
cloud technologies

We simplify IT access, security, support and spending.

ProCirrus is a unique cloud hosting company that specializes in professional service firms with strong compliance, security and performance requirements. Our full service cloud supports a wide range of industries from accountants to manufacturers and we primarily serve the Legal, Medical and Financial Sectors.

Our unique model manages the entire IT food chain from the workstation, through the local network and firewall, the internet and of course our cloud servers. For the last 20 years, we have built our solution from the ground up with **one goal in mind: to cost-effectively provide big corporate IT power and security with unmatched customer service to the small to mid-sized firm.**

We host over 1,200 distinct software titles including those procured by our clients, ones we offer as a service and custom applications developed by software providers. If it runs on a server - we can host it. So, if you value simplicity, reliability, security and support - you're our kind of client.

How it Works in 5 Minutes: overview video: https://vimeo.com/209956626

Cost-Effective, Large Firm Technology for Small to Medium Firms.

SIMPLICITY

☐ End to End Solution: Private-Cloud-Based IT Managed Services Firm including support of on-site hardware.

☐ Securely work from anywhere on PC, Mac, iPad/iPhone & Android

☐ Scalable: Complete set up or cancellation of employee accounts with one email

☐ User Help Desk Included: One Number to Call for Everything. Stop paying multiple vendors for bad service and finger pointing.

SECURITY

☐ Built in regulatory compliance – HIPAA, SEC, GLBA, PCI, SAS70, SSAE 18, SOC 1&2, Type II
☐ Robust Backups Included
☐ Affordable Disaster Recovery Available
☐ Intrusion Protection, Spam Filtering, Anti-Virus & Anti-Malware
☐ Virus Protection on all PCs

CONTINUED
